"This soundscape is like a warm, sunlit place.

It makes me feel happy, perhaps because it's like a flashback. It goes nicely with afternoon tea." -EYE (Boredoms)

"My favorite music is the music I haven't yet heard. I don't hear the music I write:

I write in order to hear the music I haven't yet heard." -John Cage

All babies are geniuses!

Have you ever listened to babies' musical performances seriously? Some time ago, London-based improvised music label ,LMC had released children's music (with adult improvisations). New York-based Mulatta Records had released children (ages 3 through 7) album, influenced by recordings of the Art Ensemble of Chicago and free jazz... The artists in this album are all under 18 months old! The pieces on this album are live recordings with no editing. Playing zither, piano, steel pan, toy turntable and computer-controlled pacifier... 10 babies are gathered together from 6 countries. You will be impressed by their unique sensitivities! *"*Music for Baby!"* (amorfon004) is a message to baby from adult; *"Kindermusik"* is a message to adult from baby!

[amorfon005 *"Kindermusik: Improvised Music by Babies"* has no connection whatsoever with Kindermusik International, Inc.]
